SUMMARY

Frontend Developer with hands-on experience building modern, responsive web applications using **React.js** and practical full-stack architectures with **Flask and Python**. Skilled in translating ideas into clean, scalable digital experiences, with growing expertise in **machine learning integration** and AI-powered solutions. Proficient in **JavaScript (ES6+)**, **React JS**, **Python**, **Flask**, **SQLite**, and modern deployment tools such as **Vercel** and **Render**.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React JS, Responsive Web Design

Backend: Python, Flask, REST APIs

Database: SQLite

Machine Learning: Predictive Modeling, PDF Report Generation, ML-Powered Applications

Deployment & Tools: Vercel, Render, Git, GitHub, VS Code

EXPERIENCE

Full Stack Developer Intern

Jun 2025 – Sep 2025

Datalabb | Lahore, Pakistan

- Contributed to the development of **Translator & Summarizer**, a multilingual web application, building a fast, accessible **Streamlit** interface for text translation and summarization.
- Integrated **Python-based API workflows** to handle real-time translation and summarization requests, focusing on speed and reliability.
- Collaborated with backend engineers to refine **UI/UX** and API response handling, ensuring a smooth end-to-end user experience.

SELECTED PROJECTS

HealthGuard AI | [GitHub](#)

2025

React, Python, Machine Learning, PDF Reports

- Built a **machine learning-powered diabetes prediction platform** with automated **PDF report generation** and a polished clinical feel.
- Designed a clean, responsive React interface for presenting prediction results in an accessible and professional format.

Full Stack Todo Application | [GitHub](#)

2025

React, Flask, SQLite, CRUD

- Developed a **task management application** with full CRUD functionality using React, Flask, and SQLite for a clean and practical workflow experience.

Translator & Summarizer | [GitHub](#)

2025

Streamlit, Python, API, UI/UX

- Built a **multilingual web application** focused on fast text translation and summarization with a smooth, accessible interface.

Weather Application | [GitHub](#)

2024

Streamlit, Python, API, Responsive

- Created a **responsive weather forecasting application** with live API integration and dynamic visual updates.

Quran Player | [GitHub](#)

2023

HTML, CSS, JavaScript, Audio, UX

- Designed an **interactive audio player** for calm, intuitive playback with modern accessibility standards.

EDUCATION

BS in Computer Science

2023 – Present

University of Gujrat

CGPA: 3.1/4.0 | Gujrat, Pakistan

Intermediate (Intermediate in Computer Science)

2021 – 2023

Punjab College

Grade: A+ | Wazirabad, Pakistan

Matriculation (Science Group)

2019 – 2021

Dar-e-Arqam School

Grade: A+ | Wazirabad, Pakistan
