SUMMARY

Frontend Developer with hands-on experience building modern, responsive web applications using React.js, and full-stack solutions across the MERN stack (MongoDB, Express.js, React, Node.js) as well as Flask and Python. Skilled in translating ideas into clean, scalable digital experiences, with growing expertise in machine learning integration and AI-powered solutions, including generative AI, prompt engineering, and AI image generation. Proficient in JavaScript (ES6+), React JS, Node.js, Express.js, Python, Flask, MongoDB, SQLite, and modern deployment platforms including Vercel, Render, and MongoDB Atlas.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React JS, Responsive Web Design

Backend: Node.js, Express.js, Python, Flask, RESTful APIs

Database: MongoDB, MongoDB Atlas, SQLite

Machine Learning & AI: Predictive Modeling, Prompt Engineering, AI Image Generation, PDF Report Generation

Deployment & Cloud: Vercel, Render, MongoDB Atlas, Streamlit Community Cloud

Tools: Git, GitHub, VS Code, Cursor AI, Trae AI, GitHub Copilot, ChatGPT

EXPERIENCE

Frontend Developer Intern

Datalabb | Lahore, Pakistan

- Contributed to LingoFlow AI, a multilingual web application, building a fast, accessible Streamlit interface for text translation and summarization backed by Python API workflows.
- Collaborated with backend engineers to refine UI/UX and API response handling, ensuring a smooth, reliable end-to-end user experience.

SELECTED PROJECTS

DailyFlow

MongoDB | Express.js | React.js | Node.js | UI/UX | [GitHub](#)

- Built a full-stack MERN productivity workspace with structured categories, priority-based task management, and progress tracking, connecting a React front end to a Node.js/Express/MongoDB REST API.

FurniSense AI

React | API Integration | Prompt Engineering | AI Image Generation | [GitHub](#)

- Built an AI-powered interior design platform that applies prompt engineering and AI image-generation APIs to turn user preferences into premium, photorealistic furniture designs.

HealthGuard AI

React | Python | Flask | SQLite | Machine Learning | PDF Reports | [GitHub](#)

- Built a machine learning-powered diabetes prediction platform with automated PDF report generation and a clean, accessible React interface for clinical results.

LingoFlow AI

Streamlit | Python | API | UI/UX | [GitHub](#)

- Built a multilingual web application focused on fast text translation and summarization with a smooth, accessible interface.
